

MOODLE TIP FOR THE WEEK

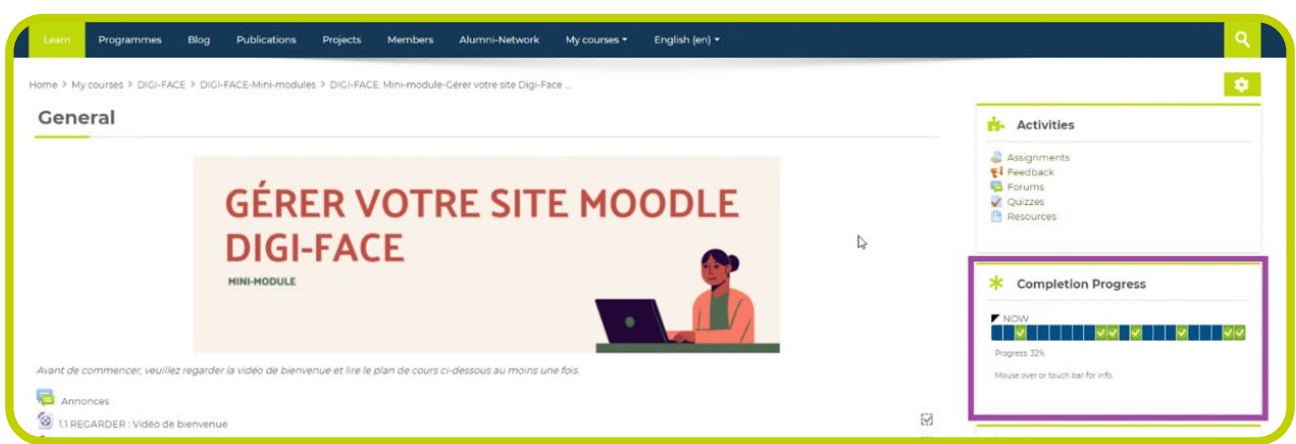

HOW TO CHECK YOUR COURSE COMPLETION STATUS

1

Go to your course and open the **course overview** page.

2

Have a look at the right side to find the **"Completion Progress"** block (see below).

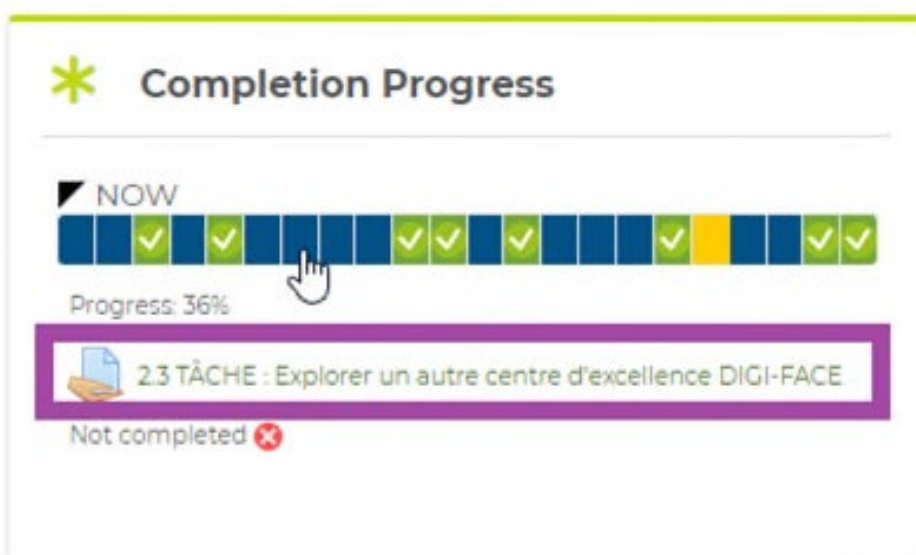

3

Check your overall completion status by looking at the percentage given under **"progress"**. In the example below the overall course progress is 36%.

If you hover over the respective box with your mouse Moodle will show which activity is displayed (see below for an example).

4

Each colour has a different meaning. **Blue** means you have not completed an activity yet. **Yellow** means that you have submitted an activity but that your teacher still has to check and mark it. **Green** means that you successfully completed an activity.
