

MOODLE TIP FOR THE WEEK

CHOICE ACTIVITY

The Choice activity in Moodle gives allows the Facilitator to pose queries that the participants answer by clicking on radio buttons to select a range of potential answers.

- Applications include:
- Subject matter feedback
 - Assessment dates
 - Participant Voting

1

With the scenario the Facilitator would like to check the availability of participants to write a quiz.

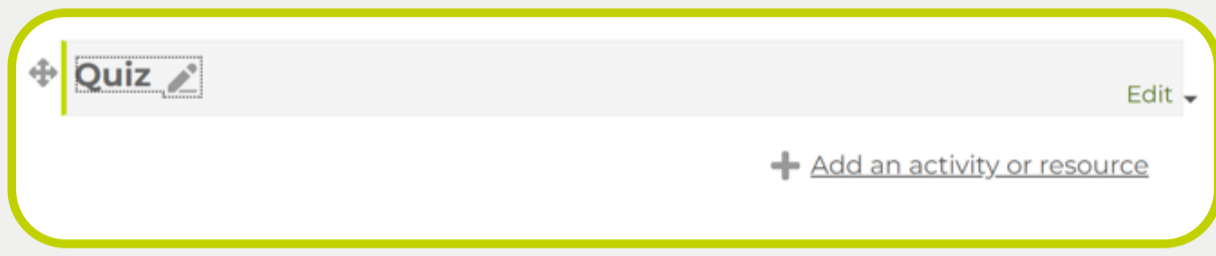

To set up a **Choice Activity** begin by turning editing on at the top right of your Moodle page.

Turn editing on

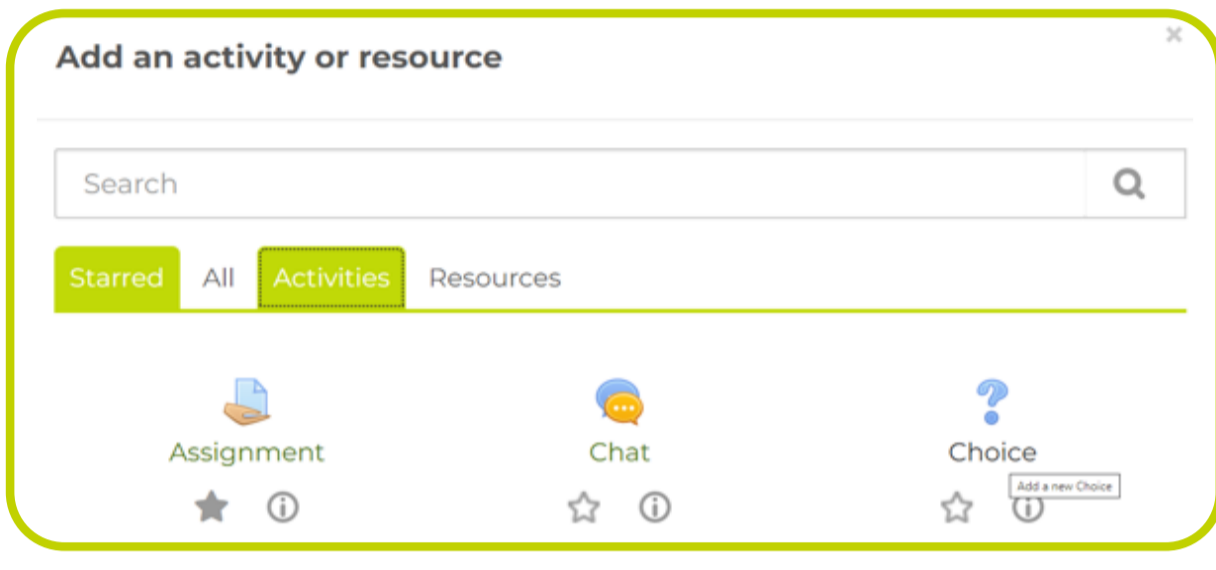

2

Navigate to the section you would like to use the activity and select **"Add an activity or resource"** button.

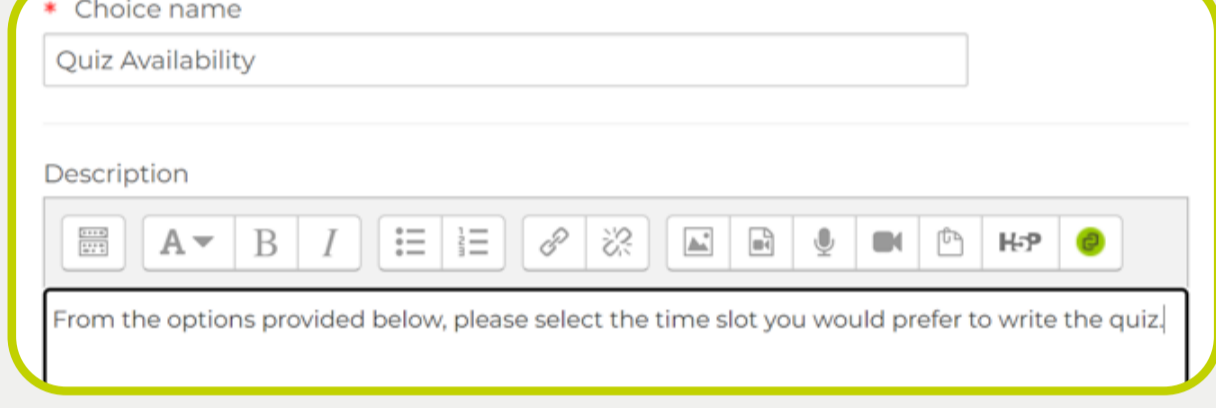

3

From the activities tab select **"Choice"**. You may click on the question mark beneath the activity to learn more about the Choice activity.

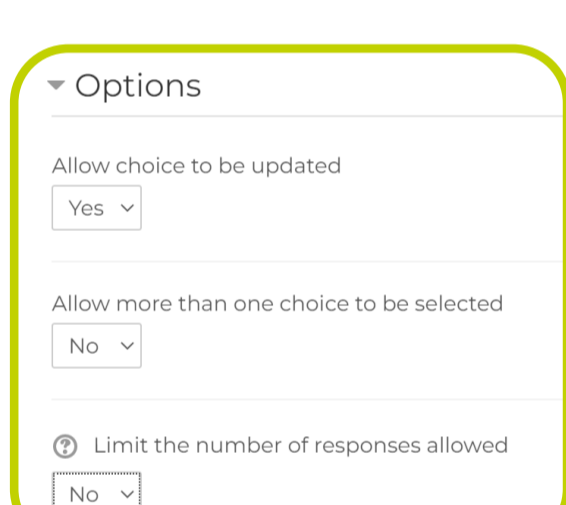

4

Give the choice activity a **name and a description** to guide your participants.

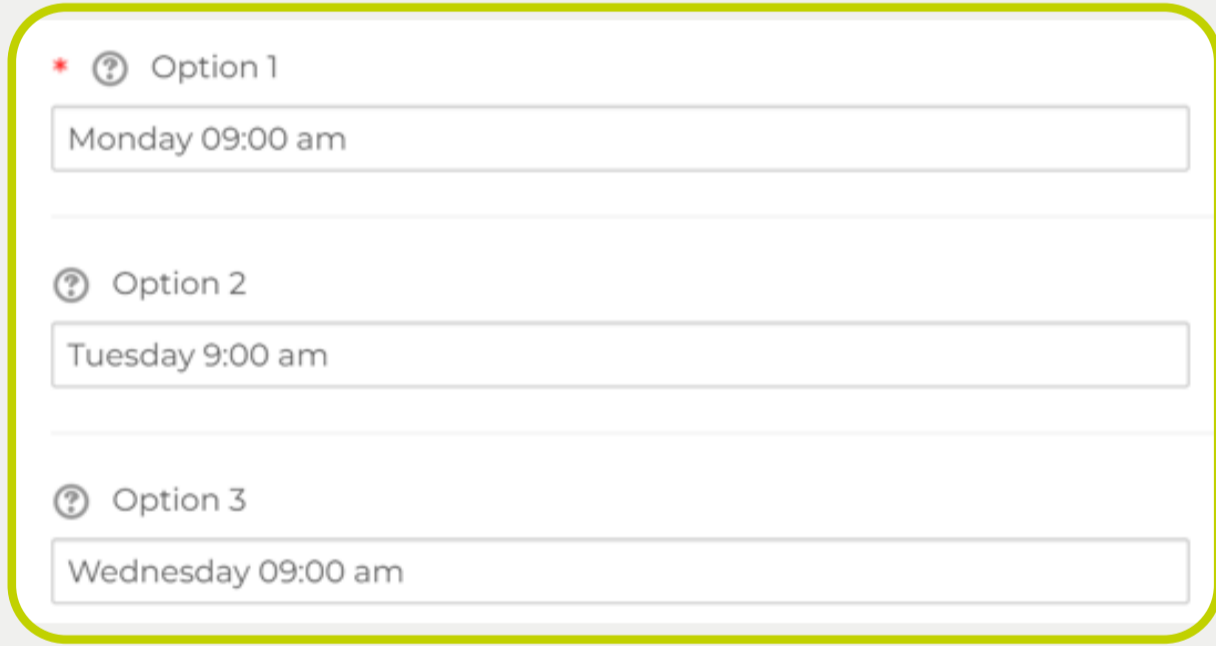

5

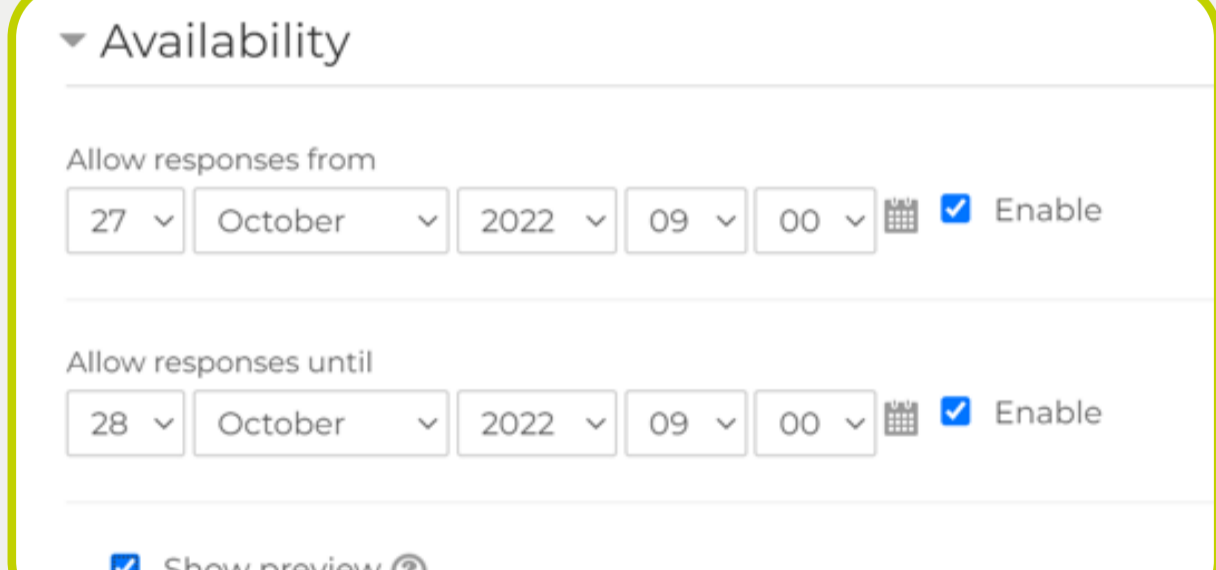

The options are flexible depending on the Facilitators preferences. **Select the options that apply to your scenario.** With this scenario the participants will be allowed to update their choice until the activity is closed. The participants will not be allowed to choose more than one date to write the quiz. The participants will not be limited by the number of participants who select a certain choice.

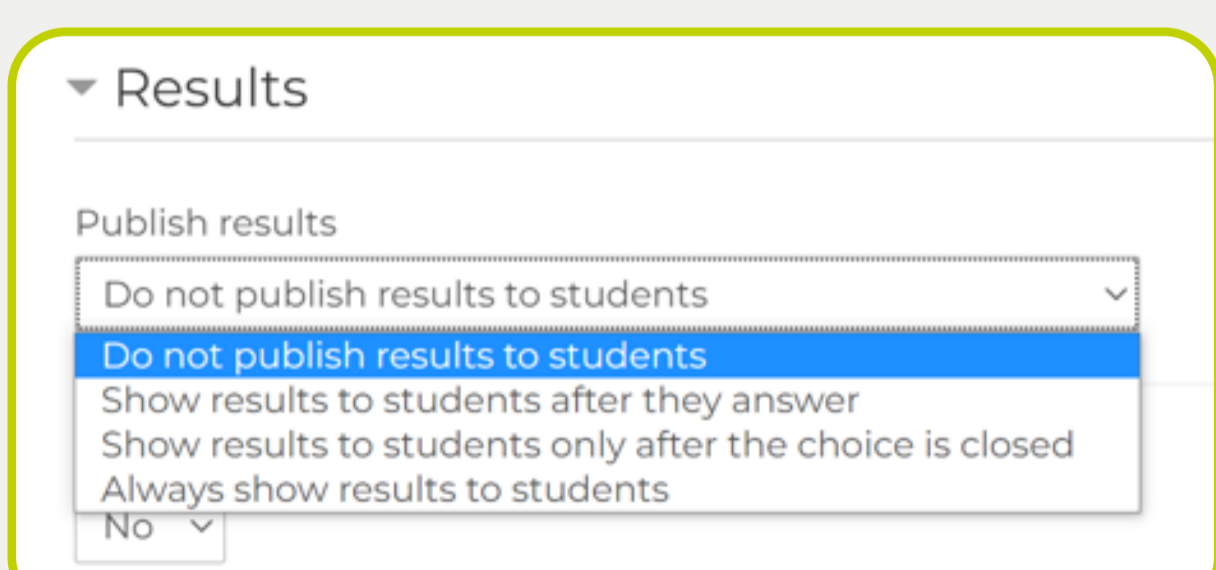

Input the text for each option.

Select the **availability options** to allow a time frame for students to respond to the options.

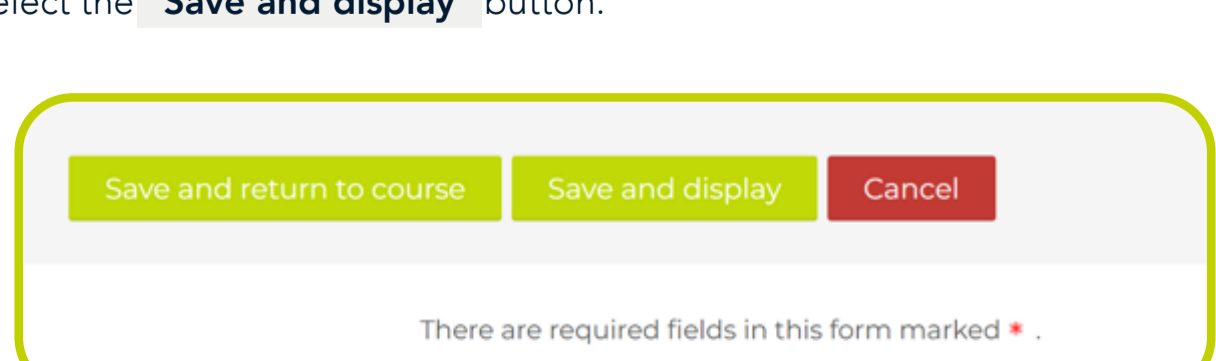

There is an option to **show the results of the choice to the participants.** For this scenario we will not publish the results of the choice.

6

Once this is completed, scroll down to the bottom of the page and select the **"Save and display"** button.

The participants will now be able to make use of the Choice activity.
