TECHNOLOGY ENHANCED TEACHING AND LEARNING

THIS COURSE IS FOR EVERYONE WHO WANTS TO DISCUSS HOW TO APPLY TRADITIONAL TEACHING AND LEARNING PRINCIPLES TO THE DIGITAL REALM. THUS, WE WELCOME BOTH LECTURERS AND STUDENTS.

This course will present universal learning principles and investigate how they can be applied to digital teaching. Some of these principles are scafolding and sequencing, chunking, lesson duration, active learning and rehearsal. While technical solutions will be presented, the course also aims to make you competent decision-makers and confident lecturers who choose their digital teaching methods wisely.
