EXPLORING THE ONLINE LEARNING ENVIRONMENT

THIS MODULE IS FOR ACADEMICS, MEDIA AND TECHNOLOGY PERSONNEL WHO WANT TO LEARN HOW TO USE MOODLE FOR ONLINE TEACHING AND LEARNING.

This course aims to introduce participants from the DIGI-FACE centres to the Online Classroom, also called the Learning Management System (LMS). Moodle is the LMS used to host the DIGIFACE learning site. It's a very commonly used open-source platform used by many universities around the world. In this course you will learn how to use Moodle both as i) a student, and ii) a lecturer.
