This course aims to introduce participants from the DIGI-FACE centres to the Online Classroom, also called the Learning Management System (LMS). Moodle is the LMS used to host the DIGIFACE learning site. It's a very commonly used open-source platform used by many universities around the world. In this course you will learn how to use Moodle both as i) a student, and ii) a lecturer.

## WHAT WE EXPECT

- full participation in tasks and meetings
- engagement with the material provided
- willingness to learn & train your mind in the good habits for an online facilitator

## WHAT YOU GET

- a certificate after successful completion
- competencies to design own course in moodle
- acquire skills to become a course multiplier
